

# What are the 6 Rs?

Match the 6 Rs with their descriptions below.

Theory	Description
<b>RECYCLE</b> 	Take an existing product that has become waste and use the material or parts of it, for another purpose, without processing it.
<b>REDUCE</b> 	Don't use a material or buy a product if you think you don't need it or if it is unsustainable.
<b>REUSE</b> 	Minimise the amount of energy and materials you use.
<b>REFUSE</b> 	Take an existing product that has become waste and reprocess the material to use in a new product.
<b>REPAIR</b> 	Recreate a product to be more environmentally friendly and still meet its function
<b>REDESIGN</b> 	When a product breaks down or doesn't function properly, try to fix it rather than throw it away.
